

SOLIDARITY ECONOMIES

one in which we are all living well

IN GOOD RELATIONSHIP WITH EACH OTHER AND WITH THE ENVIRONMENT

that future is already here - it's also in the past - if we just listen and try to fit it

to change EVERYTHING
start ANYWHERE

SOLIDARITY

is built on the idea that we are best off when...

we acknowledge the way we are interdependent with each other and with the natural world

we try to make them healthy and life-affirming

RETHINK - our current political and economic world is built on **ENLIGHTENMENT** ideas from hundreds of years ago, designed to justify the exploitative system of **CAPITALISM**

research on human psychology, natural ecosystems, feminism and indigenous economics all point to new ideas:

COOP

- humans are social
- humans are equal and care about each other
- nature should be exploited
- we are a part of nature and thrive when our environment thrives
- resources are scarce
- there is enough for everyone to live well

BUILD - SCALE UP EXISTING PROJECTS

- Time Banks
- Autonomous Territories
- Mutual Aid Networks
- Community Gardens
- Co-ops

Scaling requires preservation of original intent and creating systems of accountability

FIGHT - to create space for the new ideas, we must **REDUCE THE POWER OF CAPITALIST SYSTEMS**

... by gaining **INDEPENDENCE** from these systems:

REVOLUTIONARY DESIGN - transform existing systems in the present to create deep and lasting change for the future

this will require strong alliances

FIGHT - to create space for the new ideas, we must **REDUCE THE POWER OF CAPITALIST SYSTEMS**

... by gaining **INDEPENDENCE** from these systems:

COOP

- humans are social
- humans are equal and care about each other
- nature should be exploited
- we are a part of nature and thrive when our environment thrives
- resources are scarce
- there is enough for everyone to live well
